INTERNATIONAL SEARCH REPORT

International application No.

PCT/KR2003/002927

Box No. I Nucleotide and/or amino acid sequence(s) (Continuation of item 1.b of the first sheet)
1. With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, the international search was carried out on the basis of:
a. type of material X a sequence listing table(s) related to the sequence listing
b. format of material
in written format in computer readable form
c. time of filing/furnishing
c. time of fining furnishing Contained in the international application as filed
furnished subsequently to this Authority for the purposes of search
2. In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
